

How to change default characters in Mono16 in programs that don't support OpenType features.

- 1) Download the fonts
- 2) Open fontsquirrel [webfont generator](#)
  - a) Upload the font you've just downloaded
  - b) Choose expert
  - b) OpenType flattening
  - c) Choose the styleset number(s) and/or slashed zero
- 3) Download again

Change	Styleset number
* -> ×	1
3 -> 3	2
0 -> 0	3
1 -> 1	4
l -> l	5

Slashed zero

0 -> 0
